

Product Name AeroWave | Sleek Modern
Aluminium LED Suspension Light

Style Modern / Linear

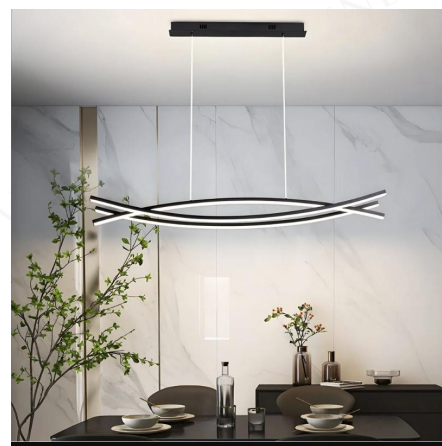

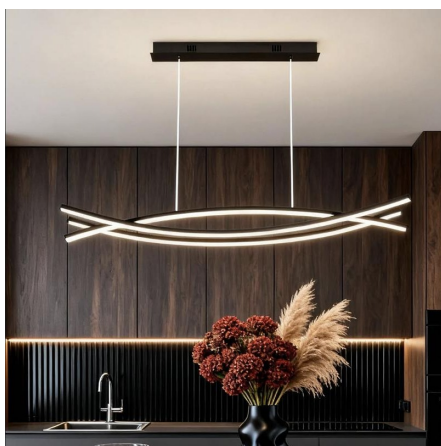

Power Supply Hardwired

A long linear suspension in aluminium with an acrylic diffuser, the LED strip running the full length so the light lands evenly down a bench or a dining table rather than in a single pool.

Two lengths — 1000 mm and 1200 mm — hung on 150 cm cables that are cut back on site to the drop you want.

High colour rendering at Ra 90 or better, so food, timber and fabric hold their real colour underneath it.
