

Product Name CanineGlow | Solar-Powered Dog Statue Light

Style Novelty / Garden ornament

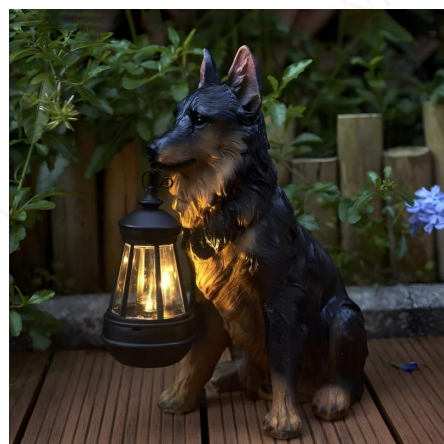

Power Supply Solar, rechargeable battery

A cast resin dog holding a small lantern in its mouth, sitting on a path, a step or a garden bed. Six breeds, each moulded with its own fur texture and stance.

Solar and completely wireless — a light sensor brings it on at dusk and runs it for up to 12 hours on a 5–6 hour charge.

The lantern lifts off the sculpture, so it can be carried inside as a small portable light and put back afterwards.

Specifications & Quality Documentation

Dimensions, materials, electrical detail and installation requirements for this fixture.

● Basic Product Information
