

Product Name	Luminara Square Backlit LED Wall Clock Lamp
Style	Minimalist / Dual-purpose
Power Supply	USB rechargeable, battery

A square clock in a metal frame with an acrylic panel behind it, so the face reads in daylight and the panel glows around it after dark. It does two jobs on one wall hook.

Three mounting styles — flat against a wall, folded around a corner, or foldable so the angle can be set.

A silent quartz movement, four backlight colours, and a motion-sensing mode that only lights when someone walks past.

Specifications & Quality Documentation

Dimensions, materials, electrical detail and installation requirements for this fixture.
