

Product Name	Lunara Cordless LED Moon Table Lamp
Style	Decorative / Portable
Power Supply	USB rechargeable, battery

A moulded PVC sphere with the moon's surface pressed into it, lit from inside so the craters read as shadow rather than print.

Completely cordless — a 1500 mAh battery gives 8 to 10 hours, and a USB cable charges it.

Sixteen colours and gradual transition modes on the supplied remote, and IP65 protection means it can go out on a table in light rain.

Specifications & Quality Documentation

Dimensions, materials, electrical detail and installation requirements for this fixture.

● Basic Product Information

Product Type	Portable table lamp
Power Supply	USB rechargeable – no wiring
Mounting	Free-standing
Control	Remote control – supplied
