

Product Name	Palmaraleaf Modern Palm Leaf Ceiling Fan with Remote
Style	Tropical / Coastal
Power Supply	Hardwired

Five broad palm-frond blades on an iron frame — wide, shallow-pitched blades that move a lot of air slowly rather than a little air fast.

A full-copper motor on dual ball bearings, so it stays quiet at the speeds you actually use in a bedroom.

Forward for summer cooling, reverse for pushing warm air back down in winter, with speed and timer on the remote.
