Product Name	Portable Solar Lantern — Timber-Look Handle, IP65 Warm White
Style	Modern
Power Supply	Solar powered — no mains wiring

A portable solar lantern with a soft white PE shade and a timber-look handle, made to carry from the deck to the table, the garden or a picnic.

The solar top charges in 4–5 hours of sun for 6–8 hours of warm white 3000K light from a 2000mAh battery. No cables or power point needed.

The IP65-rated shell shrugs off rain, and two sizes, 18 cm and 21.1 cm wide, suit table tops, steps, patios and poolside lounges.

Basic Product Information

Product Code	AVD-PSLT
Product Type	Portable Lanterns
