AVENDAE

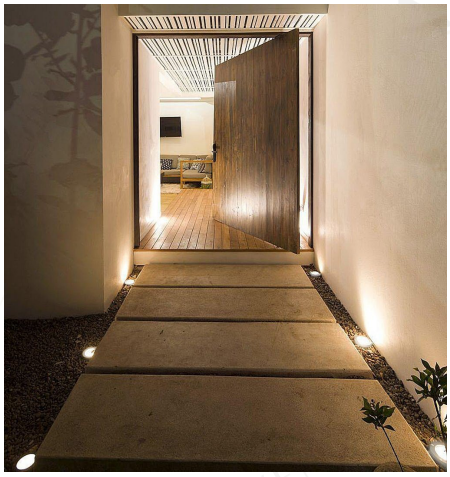

Product Name	Solar In-Ground Step Lights — Recessed LED Deck & Stair Light Kit
Style	Modern, minimal
Power Supply	Solar powered — no mains wiring

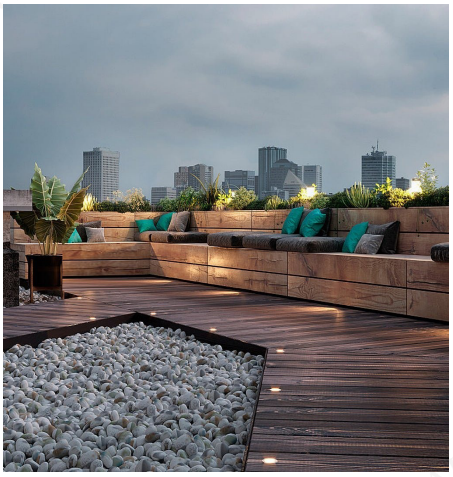

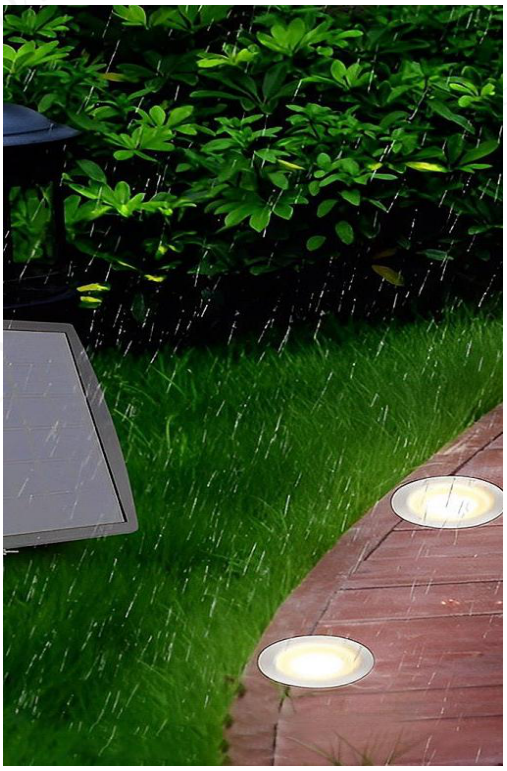

A kit of eight small recessed LED lights, all charged by one solar panel, that sit flush in decking, stairs and paths and light up automatically after dark.

Each light has a 304 stainless steel housing and PC lens sealed to IP67, with warm white (3000K) or neutral white (4000K) light to suit timber or modern paving.

There is no mains wiring: the lights plug together back to the panel, which charges in 5–6 hours of sun for up to 16 hours of light.

Basic Product Information

Product Code	AVD-SDKL
Product Type	In-Ground Step & Deck Lights
Power Supply	Solar Powered
Product Colour	Black

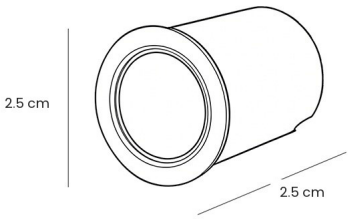

Product Details

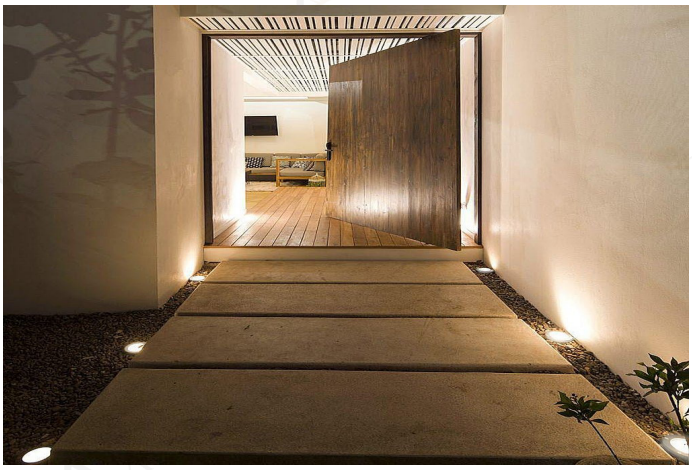

Material	304 stainless steel, PC lens
Lights per Kit	8

Core Specifications

Diameter	approx. 2.5-3.2 cm
Depth	approx. 2.5-3.0 cm
Kit Weight	approx. 0.76 kg

Power Supply	Solar, low-voltage DC
Battery	3.7V / 2200mAh
Charging Time	5-6 hours of sun
Working Time	Up to 16 hours
Light Source	LED, included
Colour Temperature	3000K / 4000K
Switch	Push button on panel
Dimmable	No
IP Rating	IP67

Installation & In the Box

Installation Method	Recessed: cut a hole in decking, steps or board, insert the light so only the lens shows.
Solar Panel	Push into soil on the ground stake, or fix with the base and screws.
Application Scenarios	Decks, stairs, paths, patios and gardens
Colour Options	Warm White (3000K), Neutral White (4000K)
In the Box	8 light fixtures, 1 solar panel, 1 base, 1 ground stake, 1 screw pack, 1 manual
