Product Name	Under-Tread LED Strip Light — Flexible 24V Stair Lighting, Warm to Cool
Style	Modern
Power Supply	Hardwired · 24V DC via transformer (AC 220–240V, 50Hz input)

A slim 1 cm silicone LED strip that tucks under stair treads and step edges, so every step glows with a soft, floating line of light.

It bends to follow curves and trims at marked cut lines. Choose flat or 3-sided light in warm (3000K), neutral (4500K) or cool white (6000K).

Runs on safe 24V DC through a separate transformer, in 3, 5 or 10 m lengths for outdoor and indoor stairs, balconies and paths.

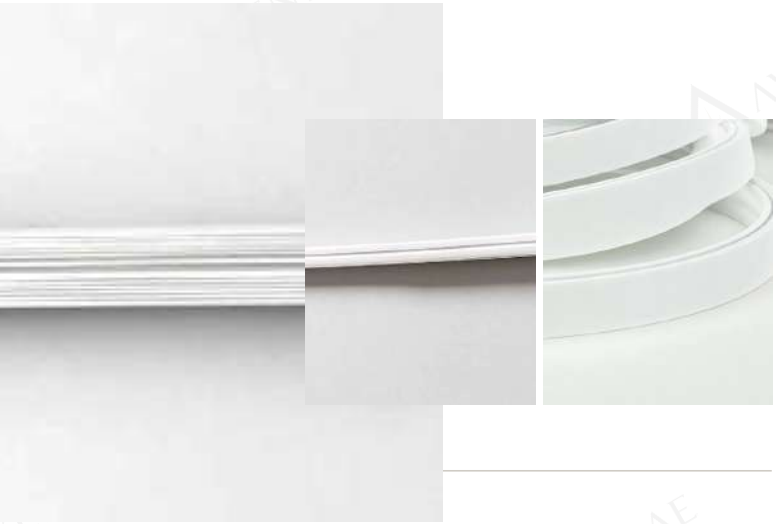

Basic Product Information

Product Code	AVD-UTLS
Product Type	Step & Deck Lights
Power Supply	Hardwired · AC 220–240V, 50Hz
Product Colour	White

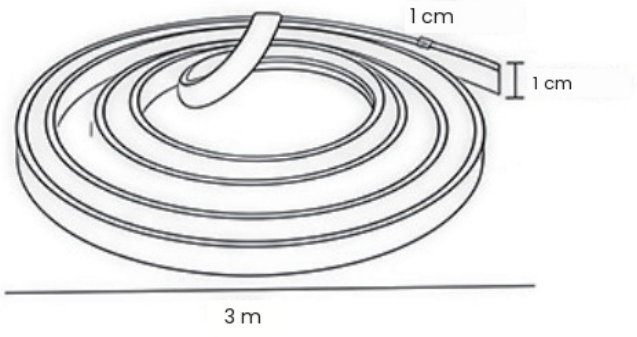

Product Details

Material	Silicone gel

Core Specifications

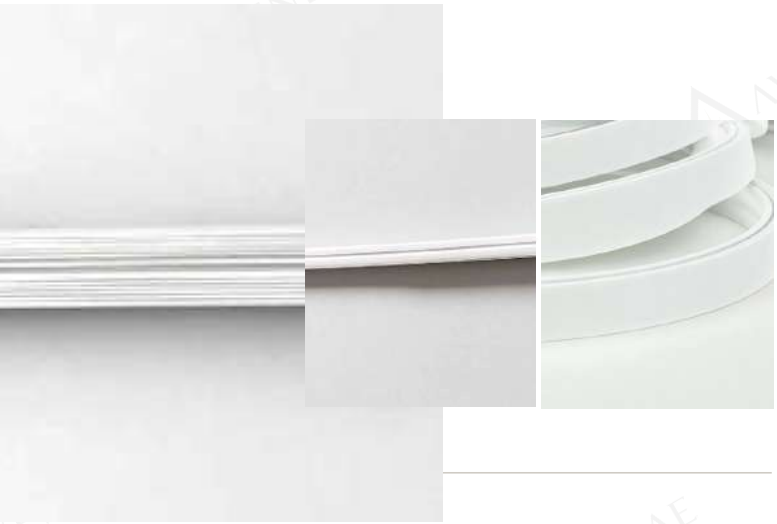

Length	3 m
Width	1 cm
Height	1 cm
